PROFESSIONAL EXPERIENCE

Advanced Control and Systems

Repsol Polímeros, S.A.
October 2022 - January 2023

Curriculum internship has a part of the Degree in Computer Engineering in which I was involved on ongoing projects in the area of Advanced Control & Systems at the level of the Control Network and Industrial Safety of the Petrochemical Complex of Sines. Loops and control sequences were also implemented through Control Builder programming and presence in cybersecurity projects.

Network and IT Systems Technician

Empresa Municipal de Água e Saneamento E.M March 2019 - June 2019

Internship as part of the Associate Degree in Networks and Computer Systems, at Empresa Municipal de Água e Saneamento E.M (EMAS) in Beja, Portugal, in which helped me learn more in terms of programming, routers and servers configuration, networks and hardware.

Web development

Insidewash
April 2017 - October 2017

Development of a simple website while I was still learning more about web development and didn't have much knowledge. The website was for a laundry company (Insidewash) in Alentejo, where during the development of the website all the information was about the business was gathered for more knowledge regarding the business to be obtained and finally the implementation of the website using html, css and javascript.

IT Management

Três Mosqueteiros, LDA
May 2016 - July 2016

As part of the professional course in IT Management, a curricular internship was done at the company of Três Mosqueteiros, LDA (TML), in which knowledge in terms of programming, information and communication technologies, management, accounting and hardware were applied.
